

UKIP's pledge to Britain

Published Mar 30, 2015

UKIP Leader Nigel Farage has announced UKIP's 5 key campaign pledges in our pledge to Britain.

UKIP's pledge to Britain is:

1. **Say NO to the EU**
2. **Control our Borders**
3. **Extra £3 billion for the NHS**
4. **Cut foreign aid spending**
5. **No tax on the minimum wage**

These 5 key pledges highlight quite how UKIP differs from the political establishment, on all these points we are at one with the public as was shown by a [recent opinion poll](#).

A recent ComRes opinion poll showed that:

- 60% of people believe we should hold an immediate referendum on whether or not the UK should be a member of the European Union
- 72% of people believe we should introduce a new system of control for immigration using an equivalent of the Australian points-based system
- 81% of people believe we should commit an additional £3 billion of annual spending on the NHS in England and Wales
- 70% of people believe we should cut the amount spent by the Government on overseas aid
- 74% of people believe we should ensure people on the national minimum wage do not have to pay income tax
